ARToptions Rouge Page Kit Directions

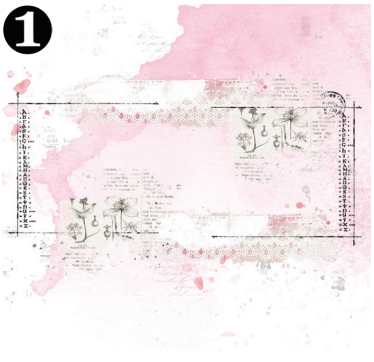

TOOLS REQUIRED: Paper Trimmer, Double-Sided Tape or Glue, Craft Knife and Scissors. Optional: Foam Tape, Ink and Sanding Tool.

PREPARATION: Begin by carefully removing all the laser cuts and printed chipboard from the packaging. Using a craft knife, turn to the reverse of the sheet and carefully cut the “pins” or nodules off each of the pieces. Sand off any residue of the nodules to leave a smooth edge.

LEVEL-UP Tips (optional): When creating your layouts, use ink or distress edges with a tool to give more of an added vintage look with dimension. In addition, if hiding elements under other layers, trim accordingly to use the unseen pieces on future projects.

Layout #1

Step 2 – Adhere the first layer of ephemera pieces - long pink diagonal striped remnant then add on the two green remnants. Image 4.

TIP: Trim one of the long green remnants in half horizontally and use half on the top and half on the bottom. Save the second remnant for another layout.

Step 3 – Adhere one of the black lace border strips along the bottom, the large white "XOXOXOXO" remnant, then adhere the long white rectangle remnant over the top. Image 5.
