49 and MARKET

Vintage Artistry Tranquility Page Kit Directions

TOOLS REQUIRED: Paper Trimmer, Double-Sided Tape or Glue, Craft Knife and Scissors.
Optional: Foam Tape, Ink and Sanding Tool.

PREPARATION: Begin by carefully removing all the laser cuts and printed chipboard from the packaging. Using a craft knife, turn to the reverse of the sheet and carefully cut the “pins” or nodules off each of the pieces. Sand off any residue of the nodules to leave a smooth edge. Each of the layout directions will have an image of all the laser cuts, chipboard and ephemera used in that layout.

Layout #1

Photo Size: One 2.75" x 2.75" (trimmed to fit behind the map edged frame)

Step 1 – Start with the background paper. Image 1. Gather all the laser cuts, chipboard and ephemera pieces as shown in Image 2. The top right of the image shows the chipboard pieces - the "Always You" & blue foliage circle, one smaller heart, two heart buttons, small "Document" label, two green flowers & thirteen small round pieces. The remaining pieces are from the laser cut sheet. You can use the reverse of the patterned paper background to see detailed images of pieces required. *LEVEL UP: You can distress or ink the edges of the patterned paper and ephemera pieces for a more vintage look.*

Step 2 – Adhere the first layer of ephemera pieces - long light blue ledger piece, teal tickets, rectangle cream piece and "5c" envelope piece. Image 3.
TIP: You can trim the teal "Ad 2347" ticket in half horizontally and use half on the top and half on the bottom and save the second ticket for another layout.

Step 3 – Adhere the foliage cluster, large on the right, smaller one on the left, then add the leaves and the hanging tag. Add your photo behind the laser cut frame. Add the "Look Here" tab behind the top left of the photo frame and then adhere to layout. Add the laser cut staple over the string on the hanging tag. Image 4.
TIPS: 1- You can trim the parts of the small foliage cluster on the left that is showing and keep the pieces that would be hidden under the layers for another layout. 2- You can substitute the laser cut staple for a chipboard staple. 3- You can use the chipboard backing sheet or foam tape under the bigger foliage leaves to give added dimension.

Step 4 – Adhere the third layer of chipboard pieces - small "Document" label, "This" circle and the sentiments. Image 5.
TIP: The small chipboard "Document" label gets adhered in place of the "This Is So You" sentiment.

Step 5 – Add on the "Special" label to the bottom of the photo frame. Adhere the last layer of ephemera pieces - the chipboard flowers, buttons, butterfly, hearts and bow. Image 6.
LEVEL UP: You can add hand or machine stitching to give added texture to the layout.

Layout #2

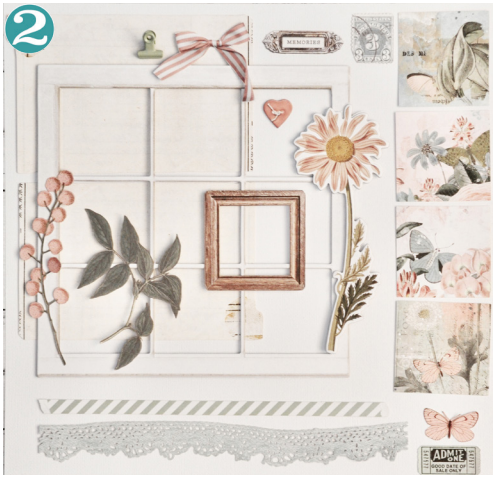

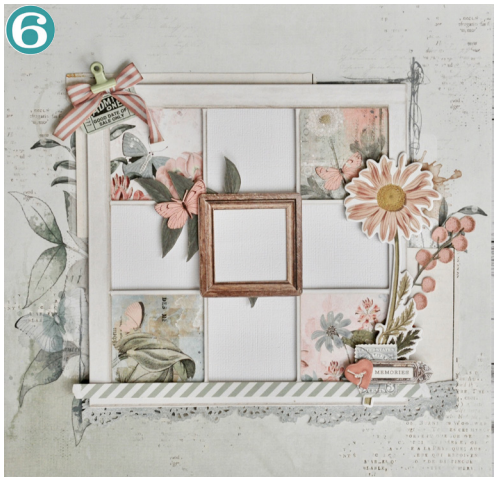

Photo Size: Five 2.25" x 2.25" (alternate - use 9 photos and skip the decorative papers used on corners)

Step 1 – Start with the background paper. Image 1. Gather all the laser cuts, chipboard and ephemera pieces as shown in Image 2. The following are the chipboard pieces - the large 9-photo frame, a large pink stemmed flower and one pink button heart. You will need to fussy cut the bow from the reverse of the cover sheet. The remaining pieces are from the laser cut sheet. You can use the reverse of the patterned paper background to see detailed images of pieces required
LEVEL UP: You can distress or ink the edges of the patterned paper and ephemera pieces for a more vintage look.

Step 2 – Adhere the first layer of ephemera pieces - lace border, two large cream remnants and pink floral stem laser cut. Image 3.
TIP: You can trim the two large cream ephemera pieces that are showing around the edge of the frame and keep the pieces that would be hidden under the layers for another layout.

Step 3 – Mount the photos behind the main 9-photo frame, adhere the decorative ephemera squares behind the four corners of the frame and then adhere to the layout, overlapping the lace border and remnant. Image 4.
TIP: You can remove the decorative ephemera squares in each corner and add in more photos

Step 4 – Adhere the third layer of ephemera pieces - ticket, foliage and large pink stemmed chipboard flower. Image 5.
TIPS: 1- Using a craft knife you can trim around leaves and butterfly on the patterned paper to lift over the edge of photos. 2- You can trim the parts of the leaves, keep the part that is showing and keep the pieces that would be hidden under the center wood grain frame for another layout.

Step 5 – Adhere the third layer of ephemera pieces - pink butterfly, wood grain frame, stamp, "Memories" label and pink chipboard heart button. Attach the pink bow with a metal clip and overlapping the blue ticket on the top left of the frame. Image 6.
LEVEL UP: You can add a material bow instead of fussy cutting the bow from the cover sheet.

Layout #3

Photo Size: Four 2.75” x 2.75”

Step 1 – Start with the background paper. Image 1. Gather all the laser cuts, chipboard and ephemera pieces as shown in Image 2. The following are the chipboard pieces - the 4 photo frame, a large blue stemmed flower and the “Little Detail” label. You will need to fussy cut the pink remnant from the reverse of the cover sheet, then cut in half horizontally. The remaining pieces are from the laser cut sheet. You can use the reverse of the patterned paper background to see detailed images of pieces required.
LEVEL UP: You can distress or ink the edges of the patterned paper and ephemera pieces for a more vintage look.

Step 2 – Adhere the pink remnant piece, half on the top and half on the bottom Image 3.

Step 3 – Adhere the second layer of ephemera pieces - the large cream remnant, torn border, lace border, long rectangular kraft remnant, “Treasured” tag, blank tab and laser cut washi strip. Image 4.

Step 4 – Mount the photos behind the frames and then layer over the remnants, tabs and tags. Adhere the heart doily overlapping the right edge of the photo frame. Adhere the “In This Moment” stitched laser cut, overlapping the borders. Image 5.
LEVEL UP: Using a craft knife you can trim around the flowers on the patterned paper to lift over the edge of the photo frame.
Tip: You can use the chipboard backing sheet or foam tape under the right edge of the white heart doily so it lays flat.

Step 5 – Adhere the third layer of ephemera pieces - large chipboard blue stemmed flower, tickets, “Treasure Moment” circle, laser cut bow and “Little Details” chipboard label. Image 6.
LEVEL UP: You can add hand or machine stitching to give added texture to the layout.

Layout #4

Photo Size: Two 3" x 3" (trimmed to fit behind frames)

Step 1 – Start with the background paper. Image 1. Gather all the laser cuts, chipboard and ephemera pieces as shown in Image 2. The top left of the image shows the chipboard pieces - "The Good Life" & "Look" circle, two larger hearts, Document label, Happy Days sentiment, two staples & two small button pieces. You will also use two metal clips and the remaining pieces are from the laser cut sheet. You will need an additional white frame (not pictured in Image 2). You can use the reverse of the patterned paper background to see detailed images of pieces required.
LEVEL UP: You can distress or ink the edges of the patterned paper and ephemera pieces for a more vintage look.

Step 2 – Trim the "4594" ticket in half horizontally. Keep the top half for later. Adhere the first layer of ephemera pieces - bottom of the ticket, banner, large tag and stitched square. Image 3.
TIP: You can trim the bottom of the banner that is showing and keep the pieces that would be hidden under the layers to make another banner to add an extra one on this layout or use for another layout.

Step 3 – Add your photos behind two of the die cut frames. Overlap one of the frames with a second laser cut frame behind it and attach with a metal clip on the top right of the layout. Adhere the second layer of ephemera pieces - large white circle, lace border and long word border strip. Image 4.

Step 4 – Adhere the third layer of ephemera pieces - long green tag, "Journey" round laser cut, top half of "4594" ticket, white hanging tag, teal ticket and "The Good Life" & "Look" circle . As well, adhere the large foliage laser cut on the left and the smaller one on the right, then add the "Enjoy Life" tab and "Exploring" label behind the last photo. Attach with a metal clip. Image 5.
TIP: You can use the chipboard backing sheet or foam tape under the foliage leaves and butterfly wings to give added dimension.

Step 5 – Adhere the remaining last layer of laser cut and chipboard pieces - bow, label, sentiments, staples and buttons. Image 6.
LEVEL UP: You can tuck the leftover laser cuts, words and chipboard pieces through the foliage and around the circle.
